Industrial Enclosures

Industrial Enclosures (Series S)

Technical Data

JARDEPL provide enclosures ranging from fully welded construction with IP-55-IP-68

- Wall-mounted constriction with compression lock.
- Wall-mounted enclosure with clamping arrangement.
- Wall mounting enclosure with swinging arrangement.
- Door In Door enclosure.
- Enclosure suitable for Pedestal and HMI mounting.

SPECIFICATION COMPLIANCE:

Complies to the standard IS/ IEC 60529:2001 (RA2019)(Empty enclosure, Control Instrument)IP protection from IP 42 to IP 68.

DESIGN SPECIFICATION AND CONSTRUCTION:

- Fully welded body, Removable door with earthing
- Internal mounting bracket provided for mounting rail the mounting Plate.
- Mounting bracket standard removable or Welded.
- Main body in 1.2/1.5 thick, Doors in 1.2/1.5/2 mm thick. Mounting bracket 2.00 mm thick, 135° door opening with SS 304 Hinge

FEATURES:

Enclosure fitted as a standard with 304, 306L lock, hinges, bolted Cover, Finish Matt N 4, Internal 2 B Finish. Finish for CRCA, Powder coated 60-70 microns thick, textured or smooth finish, RAL standard 7035 shed.

MATERIAL:

MOC MS/CRCA, SS 304L/SS 316L

GASKET:

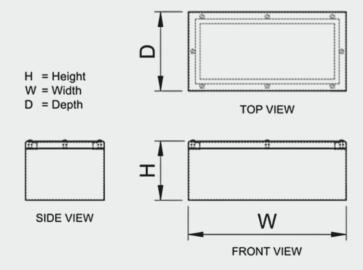

- Gasket for door sealing formed in place foam gasket (FIPFG) / Neoprene.
- Operating temperature of -40 to +60 degrees C

CABLE ENTRY:

Gland holes are provided at the Bottom/ Gland plate as requested by the customer.

PACKING:

Packing with Bubble wrap, and Plastic wrap, corrugated/wooden packing provided on customer demand.

Industrial Enclosures (Series M)

Technical Data

JARDEPL provide enclosures ranging from fully welded construction with IP-55, IP 65

- Wall-mounted constriction with compression lock.
- Wall mounted enclosure with clamping arrangement.
- Wall mounting enclosure with swinging arrangement.
- Door-in-Door enclosure.
- Enclosure suitable for Pedestal and HMI mounting.

SPECIFICATION COMPLIANCE:

Complies to the standard IS/ IEC 60529:2001 (RA2019)(Empty enclosure, Control Instrument)IP protection from IP 42 to IP 65.

DESIGN SPECIFICATION AND CONSTRUCTION:

- Fully welded body, Removable door with earthing
- Internal bush for mounting Plate.
- Mounting bracket standard, removable or welded.
- Main body in 1.5/2 mm thick, Doors in 1.5/2 mm thick.
- Mounting bracket 3.00 mm thick, 135° door opening with SS 304 Hinge

FEATURES:

Enclosure fitted as a standard with 304, 306L lock, hinges, bolted Cover, Finish Matt N 4, Internal 2 B Finish. Finish for CRCA, Powder coated 60-70 microns thick, textured or smooth finish, RAL standard 7035 shed.

MATERIAL:

MOC MS/CRCA, SS 304L/SS 316L

GASKET:

Gasket for door sealing formed - in - place foam gasket (FIPFG) / Neoprene. operating temperature of -40 to +60 degrees C

CABLE ENTRY:

Gland holes are provided at the Bottom/ Gland plate as requested by the customer

PACKING:

Packing with Bubble wrap, and Plastic wrap, corrugated/wooden packing provided on customer demand.

LOCK:

Single point, Quarter-turn Compression locks,

GLAND PLATES:

Removal from inside / outside, availablein 2mm.3mm thick. steel material.

MOUNTING PLATES:

Standard 2 mm galvanised sheet, mounted on bush. Side mounting plate on customer demand.

EARTHING:

M6 / M8 earthing stud on body and door provided with washer and nut as standard.

Industrial Enclosures (Series L)

Technical Data

Outer Stainless steel enclosures are ideal for outdoor application. JRDE outdoor enclosures have a wide range for floor standing, Frame Mounting, Single Door, Double door, Multi door, fully welded, and removable Covers.

JRDE enclosure designs are suited for Efficient, Flexible, installation with an IP rating which will keep electronic equipment safe and continue to run reliably.

SPECIFICATION COMPLIANCE:

Complies to standard IS/IEC 60529:2001(RA2019) (Empty Enclosure, Control Instrument)

CERTIFICATION COMPLIANCE:

KLPL/BTC/22/05-07 (IP-55, IP-65) TUV/PTL/22-23/SFTY-WT/0018 (IP-55, IP-65)

DESIGN SPECIFICATION:

Removable front and back door, fully welded structure of panels, Top removable or fixed welded by ensuring Ingress Protection is maintained, all accessories are removable in design..

MATERIAL:

Body, Doors, Structure 1.6mm, 2mm, 2.5mm, 3 mm in 316,3161, 304,304L material standard, Finish 2B/N4 Matt,

STANDARD FEATURES:

Enclosures fitted as standard with 304,316,316L locks, hinges, door stopper, drain breather, drawing pocket, light bracket and limit switch bracket, Farthing studs, and hardware.

EARTHING PROVISION:

LHS side, copper earth stud available from inside and outside the Enclosure.

CONSTRUCTION

Fully welded, rigid and robust frame.

DOORS:

Fitted with hinged LHS or RHS openings. Removable type with Screw and Bush fitting.

LOCK:

Single-point CAM lock with Key, 3-point Swing handle with Key, Push button handle with Key.

CABLE ENTRY ARRANGEMENT:

Removable Gland plate from inside or outside of the enclosure in 2-6mm thickness in SS Material standard.

LIFTING ARRANGEMENT:

Removable I-Bolt M-12 size with 200 kg each load carrying capacity fitted with a bush arrangement

PLINTH/STAND

Removable Plinth of size 100mm-300mm with grounding provision, fully welded stand with square tube as per 100mm-400mm as per application.

FINISH

Inside 2-B, Outside N-4 (Matt)
